## **Officials to talk about plans for growth**

Southeast Boise neighbors can learn about and comment on two regional planning efforts today.

Staff from the Community Planning Association of Southwest Idaho will present information on "Communities in Motion," a joint effort to come up with a long-term transportation plan and "Blueprint for Good Growth."

The presentation should last about 20 minutes, and neighbors can ask questions and fill out comment sheets.

The meeting will begin at 7 p.m. in the Timberline High School choir room. For more information, call Fred Fritchman at 336-7627.
